SALESMATE

SALESMATE is a great support tool that can be used to showcase two or more important product facts while promoting product and company brand awareness. It sets up in five seconds or less and collapses even faster! Easy graphic change out makes customized visits a snap. Far superior to other forms of display - it fits in your sample case or carry on luggage. It is so compact that it is the no hassle display for all sorts of applications.

The Green Display

Standard pop-ups are waging a full offensive against our planet. Landfill destiny is making it difficult for companies to meet their greenness goals. SALESMATE combats these issues, on every front, helping you meet your corporate and personal green initiatives. With the recycled fabric option, SALESMATE displays are completely recyclable. Graphics are composed of 88% recycled material made from soda bottles. With these options SALESMATE has a far lower carbon footprint than the typical bulky pop-ups.
